

Autism resources for everyone.

OAR provides evidence-based autism resources that help families, educators, and self-advocates address the challenges autism presents.

families

Helpful guidebooks include:
A Guide to Safety, Navigating the Special Education System, A Guide for Teens,
 and more!

educators

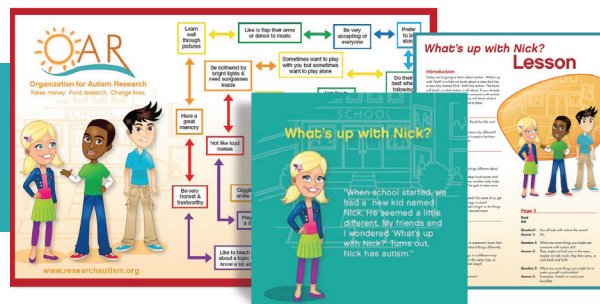

The **Curriculum in a Box** includes:
Understanding Autism: Professional Development DVD,
A Guide to Autism, and A Guide to Asperger Syndrome.

Help kids learn more about autism!

The **Kit for Kids** includes:
 A lesson plan, classroom poster, video, and 20 storybooks.

These resources are available at no cost to you.

Raise money. Fund research. Change lives.

Since 2003, OAR's **RUN FOR AUTISM** program has raised more than \$5 million in support of applied autism research, scholarships, and resources. You can help make a difference.

"Am I glad I ran? Emphatically, yes! There is something magical about doing something good for someone else and being part of something bigger than yourself."

Chuck White, Country Music Marathon

The Organization for Autism Research (OAR) was established in 2001 as the product of the shared vision and unique life experiences of its seven founders. Led by family members of people on the autism spectrum, OAR is dedicated to using applied science to answer questions that parents, families, teachers, caregivers, and others in the autism community confront daily. No other autism organization has this singular focus.
