Why Hire?

Persons with autism often are:

• Detail-oriented, disciplined, honest, reliable
• Inclined to analyze problems from unique angles
• Uniquely suited for number-crunching, systematic thinking, software testing, and other tasks requiring an analytical mindset

And they want to work for you!

Draw from this untapped pool of talent. Put these people in productive roles in your company, and take the lead in your industry!

"If we could use skills like I saw among people with autism in software testing, data analysis, quality control, that would be phenomenal...There is no reason why we should leave these people unemployed when they have so much talent and there are so many vacant jobs in the high tech sector."

—Thorkil Sonne, SAP

Hire Autism is a virtual job fair where employers meet people with autism with the talent and dedication needed to do important jobs. Job seekers with autism showcase their strengths, skills, and qualifications by creating a unique profile and applying to open positions.

Benefits for Employers:
- View standardized applicant profiles that fully describe candidates with autism
- Readily identify qualified potential employees
- Find and hire employees with autism well-matched to the job and workplace
- Enhance workforce diversity

Benefits for Job Seekers:
- Apply for jobs with employers open to hiring persons with autism
- Utilize a job-search tool specifically designed for individual needs
- Advertise unique skills and strengths
- Access advice about how to write resumes, handle interviews, and navigate the workplace

A growing number of companies are implementing hiring initiatives for adults with autism. For example, software company SAP plans to make up 1% of their workforce with people with autism by 2020.

Companies that actively embrace hiring a diverse workforce include:
- Freddie Mac
- Walgreens
- Microsoft
- AMC
- Target
- Cisco
- The Home Depot
- Wegmans

- Absenteeism rates of employees with disabilities are lower than, or equal, to others
- After hiring people with disabilities, employers have seen a positive impact on morale, employee retention, and workplace culture

92% of Americans view companies that hire people with disabilities more favorably
87% would prefer to support companies who hire people with disabilities

Of the 54 million Americans with autism and developmental disabilities, only 20% are employed or seeking employment

Within the first eight years after leaving high school, just over half of young adults with autism have ever worked for pay outside the home

88% cost less than $1,000

50% of workplace accommodations (if needed) cost less than $50
